

30th November 2016

Dear Parent/Carer

Chicken Pox, Measles and Shingles

I am writing to provide you with an important update regarding the health and well-being of our students at Newark Academy. At present, one of our students is receiving medical treatment for an ongoing illness which puts them at risk of becoming very unwell and in need of urgent medical treatment if they are exposed to measles, chicken pox and shingles. Could I please ask that you contact the school immediately if you suspect that your child is experiencing symptoms of any of these illnesses.

We take the health and well-being of all our students extremely seriously and we are grateful for the support, co-operation and consideration of all parents and carers in this matter.

If you have any queries please do not hesitate to contact the school.

Yours sincerely

A handwritten signature in black ink, appearing to be 'Andy Seymour', is written in a cursive style.
