

Extracurricular activity is so important to young people as it helps them to explore abilities, try new things and meet new people outside of the classroom. It also helps to build self-esteem and give them an opportunity to make a positive contribution to their school. Additional skills like time management and commitment are also gained due to an extensive programme of showcases throughout the year, giving students the chance to shine in front of an audience, where possible!

I would like to sign my child / myself up for the following club / class. My child will be collected at the end of the session from Newark Academy, unless otherwise stated in writing. By signing this I am also giving consent for photographs.
